## VSIG Ordering Codes

---

Product Group: Vishay Siliconix/Mar 19, 2015

---

Dear Valued Customer:

As part of Vishay Siliconix commitment to Quality we would like to extend to you a notification of new ordering codes that Vishay is creating to allow ordering of products manufactured solely at VSIG Fab in Itzehoe, Germany. The new ordering codes are created so that unchanged parts from Santa Clara or GlobalFoundries Fab can be shipped with the standard ordering code (with dash) and VSIG parts that are approved can simultaneously be ordered/shipped with the new ordering code (with underscore).

When creating the new ordering code, we replaced the last dash ( - ) in the standard ordering code with an underscore ( \_ ). If there was no underscore in the part number an underscore was inserted. For example:

SQD15N06-42L-T4GE3 was changed to SQD15N06-42L\_T4GE3

SQD50N04-4m5LT4GE3 was changed to SQD50N04\_4m5LT4GE3

SQD40N10-25-T4-GE3 was changed to SQD40N10-25-T4\_GE3

SQ3457KGD was changed to SQ3457\_KGD

Please refer to the table on the following pages for detailed listing of Standard Ordering Code and VSIG Ordering Code.

Sincerely,

Shishir Rai
