PRODUCT CHANGE NOTIFICATION

Notification No: cn003703 Date: 5-22-2017

Change Information

For Notification Only

Product Change Class: D

Description of Change:

|GE Critical Power continually strives to offer up to date products that are relevant to marketplace needs.

In an effort to ensure our product portfolios are aligned with market expectations, we are taking action to offer this advance notification of our plan to eliminate some unproductive codes and retire some of the more mature product families as listed in this announcement.

Please note that only the exact products listed are affected. A Last Time Buy (LTB) offer is being provided for these codes and a final LTB date has been established well into the future

For these End of Life (EOL) codes, lead-times have been extended and are referenced in the attached file along with suggested replacement products.

Be aware that due to the advanced age of some of these product designs, piece part availability is a concern. Therefore, orders from this point forth will be Non-Cancellable and Non-Returnable (NC/NR) and orders will be filled on a first come first filled basis. We are requesting your last buy purchase orders be placed on or before November 30, 2017. Delivery on all orders must be taken by May 31, 2018. Please contact your Global Account Manager, Sales Rep, or responsible Product Manager if you have questions about any of the details outlined in this action. GE representatives will be available to assist you with migration to alternate parts as necessary.

Estimated Implementation Date: 2017-05-31

Material Affected

Operation	Old Comcode	Old Part Number	New Comcode	New Part Number	New Qty	New Assy	BD Ref
-----------	-------------	-----------------	-------------	-----------------	---------	----------	--------

Products Affected
