

# 2103301010 Change of Reel Protective Material

**Bulletin Issue Date:** Mar 30, 2021

**Effective Date:** Mar 30, 2021

## Description of Change

Silicon Labs is pleased to announce the change in reel protective material from cardboard strip to pink foam strip for the affected products listed in the Product Identification section.

The new pink foam strip is able to resist reel deformation better than the cardboard strip and it is also ESD safe. The drop test protection of the material is not affected by the change in cardboard strip to pink foam strip, as it is not considered as the component of the drop protection materials.

As of the effective date of this PB, Silicon Labs will fulfill orders from either the existing or new reel protective materials. Once the current reel protective material is depleted, orders will be 100% fulfilled from the new reel protective material.

## Reason for Change

To improve packing efficiencies as well as enhance the protection of the product

Existing protective band Cardboard strip	New protective band Pink foam strip
	

#### Disclaimer

Silicon Labs intends to provide customers with the latest, accurate, and in-depth documentation of all peripherals and modules available for system and software implementers using or intending to use the Silicon Labs products. Characterization data, available modules and peripherals, memory sizes and memory addresses refer to each specific device, and "Typical" parameters provided can and do vary in different applications. Application examples described herein are for illustrative purposes only. Silicon Labs reserves the right to make changes without further notice and limitation to product information, specifications, and descriptions herein, and does not give warranties as to the accuracy or completeness of the included information. Silicon Labs shall have no liability for the consequences of use of the information supplied herein. This document does not imply or express copyright licenses granted hereunder to design or fabricate any integrated circuits. The products are not designed or authorized to be used within any Life Support System without the specific written consent of Silicon Labs. A "Life Support System" is any product or system intended to support or sustain life and/or health, which, if it fails, can be reasonably expected to result in significant personal injury or death. Silicon Labs products are not designed or authorized for military applications. Silicon Labs products shall under no circumstances be used in weapons of mass destruction including (but not limited to) nuclear, biological or chemical weapons, or missiles capable of delivering such weapons.
